RECYCLE YOUR SOFT PLASTIC RIGHT HERE

Soft Plastics Collection

On Saturday, September 24th, from 11:00 am to 1:00 pm, the Laconia-Gilford Lions Club and the Green Sanctuary Committee of the Unitarian Universalist Society of Laconia are holding another collection.

Soft clean plastics are accepted. Blue and white Amazon bags are acceptable. No crunchy snack bags, no pet food bags, no boat storage covers. Any attached paper on bags needs to be cut off.

Our greater Laconia community is to be complimented on keeping these plastics out of landfills where they end up being burned and in turn polluting the air we and all breathing creatures inhale.

Bring what you have saved to the curb in front of our little white church at 172 Pleasant Street, Laconia. Our volunteers will be out front to assist you. Should you have any question, you may email theandrews@verizon.net or call the church office at 603-524-6488.

Our yesterdays

Our sincere thanks to Warren D. Huse, the Laconia Historical and Museum Society, and the Laconia Daily Sun for providing a glimpse into our community's past.....

THEN...

This was the Dr. Easton House, at the corner of Canal and Beacon streets, Laconia, seen as it looked in the 1870s. The bridge in foreground spanned the Perley Canal which, at that time, had not been encased in concrete but was open for much of its length from its intake near the Church Street Bridge to its tailrace west of Main Street. The large white house was used for a number of years as a convent and school by St. Joseph Parish and then as a rooming house, known as 'The Beacon,' named for a religious society of that name — which also gave its name to the street, earlier known as Franklin Street. Church Street and the Laconia Post Office are just-off photo at right. (Laconia Public Library)

...AND NOW

In the early 1920s, one-story brick stores were erected on both sides of Canal Street by Benjamin Piscopo, builder of the Colonial Theater, Piscopo Block and New Piscopo Block, among other enterprises. The bridge was replaced in 1919 by a concrete enclosure for the canal, through which the water continued to flow until the late 1990s, when use of the canal was discontinued after Allen-Rogers ceased operations here.
